## NEWS AND NOTES.

### A Summary of Important Events.

The people of New York State have adopted the free-canal amendment, the vote in the metropolis against it being but 630.

The Duke of Newcastle has left London for New York, with the intention of making an extended tour of the United States.

LATEST advices from Chili announce that peace negotiations have been renewed with Peru on the basis of the session of Tacna and Arica. The Chilean Congress opened on the 6th.

The Mayor of Iowa City, Iowa, has begun granting licenses to saloons, his action being induced by Judge Hay's decision that the prohibition amendment is unconstitutional.

SECRETARY FOLGER has directed Assistant Treasurer Aton at New York to redeem any of the United States bonds which have been called in for redemption at the rate of \$5,000,000 per week.

The American flag was carried in the procession in honor of the installation of the new Lord Mayor of London, on the 9th, escorted by a guard of honor composed of Sergeants of the Royal Fusiliers.

In a lecture under the auspices of the Federation of Labor in Washington, the other night, Mr. Henry George called attention to the alarming growth in the strength of railroad corporations, and recommended as the only practicable check thereto the absorption of their property by the Government. In the results of the recent elections Mr. George saw the promise of a revolution in popular feeling which would result in bringing forward great industrial and economic principles. Invitations to be present had been extended to the President and members of his Cabinet, but none of them attended.

REV. J. H. NEWMAN, of New York City, says: "There has been a belief in spirits among all nations, and that there is an intermediate state has been almost universally believed. In Bible times the two worlds met. There was communication between them as there is now between New York and London, and so frequently, and so course. If spirits exist the question comes as to what form they have. In the first place, I say that wherever there have been appearances the spirits have been in human form. It is a physiological fact that the human soul is coextensive with the nervous system. If you take away everything from the body but the nervous tissues you still have left the human form. Death is the evolution of the soul out of this system of the human body."

The various land districts in Minnesota and Dakota are receiving special attention just now by the Commissioners of the General Land Office. The frauds which have been going on in them, no doubt for years, are being sifted to the bottom, and will be prevented in the future if possible. Those recently discovered by Inspector Halcomb in the Mitchell (D. T.) District seem to be in the same line with those already exposed in the Duluth and Saint Cloud Districts. As in the fraudulent entries at Duluth, it seems to be the object of parties at Mitchell to obtain possession of the valuable lands solely for speculative purposes. The methods are somewhat different, but the object is the same, being to obtain the lands for speculators without complying with the homestead and timber culture laws.

The Post-office Department has begun the payment of allowed claims of postmasters who have suffered loss by fire or robbery. So far nearly sixteen hundred claims, covering a period of fifteen years, have been received and examined. In many cases the loss can not be ascertained, as the postmasters' records were all destroyed, and evidence has to be taken as to the probable loss. Upon this the claim is allowed. The largest number of these claims are from the West, especially those arising from robbery. In Connecticut and New York, however, robberies reach a large amount. Allowances of these claims will probably not necessitate additional appropriations, as in the past years. Losses by fire or robberies have been deducted from the Treasury, where it now remains.

The November corn report of the Department of Agriculture shows planting is later and replanting more general than for several years. The prospect up to July first was discouraging, causing a sharp rise in values of grain and meal. Since then the season has been steadily favorable to the growth and ripening, and deferred frosts made the growing period of fully average length. The condition in July fully averaged 85; was 83 in August, same in September, and 81 in October. Last year the condition fell from 90 in July to 66 in October, presaging a loss of over four hundred and fifty million bushels, which was fully realized. The department has three tests of quantity produced, viz.: Comparative condition in October; yield per acre returned in November and in December; total product as compared with the total of previous year. In October the highest indication of the aggregate was 1,689,000,000 bushels, and it was stated later returns of the product may slightly reduce, but can not materially increase, this result. The present return of yield makes the general average close to 25 bushels per acre, which is under medium yield, confirming the prediction of September 1, that the heavy products of '78 and '80 can not be approached under the most favorable circumstances, which was 28-1.19 bushels in the census year, with the average yield of ten years to '80 was nearly 27 bushels. November returns of the yield per acre on an average between 65,000,000 and 66,000,000 make the aggregate nearly 1,650,000,000 bushels. The quality of the crop is superior throughout the South. It falls below a standard of 100 in only 18 States and Territories; only 1 point below in Michigan, 2 in Ohio, 3 in Nevada, 5 in Indiana, Vermont and Utah; 6 in New Jersey, 8 in Colorado, 8 New York, 10 in Rhode Island and New Mexico, 15 in New Hampshire and Iowa, 16 in Dakota, 18 in Minnesota and 22 in Wisconsin.

### PERSONAL AND GENERAL.

A SPECIAL train from Chicago, carrying 106 armed men, arrived at Alexis, Ill., the other morning, and the party proceeded to take possession of 150 Clydesdale horses in the stables of Colonel Holloway, at the instance of William Buchanan and James Johnson. The citizens determined to tear up the railway track if necessary, and at once caused the arrest of the ringleaders and of the engineer, conductor, and telegraph operator, and returned the horses to the stables.

G. H. BUSTED, a Massachusetts distiller, and G. D. Bayard and G. F. Perremon, New York liquor dealers, are held on charges of defrauding the revenue.

ARTHUR HALLER was killed and Frederick Pierce probably fatally hurt by a locomotive on the New York Elevated Railroad the other day.

In the Jeannette inquiry at Washington the other morning Melville narrated an incident in which Chipp, losing strength and courage, and finding himself unable to proceed further, threw himself down upon a sled and besought the party to go on without him, saying it was no use for him to struggle on further. A number of lady relatives of Chipp burst into tears, and, finding themselves unable to listen calmly to a further account of his sufferings, left the room.

THE Department of Agriculture reports exceptionally fine weather during the past month for maturing and harvesting cotton, and returns estimate the yield of acreage of each State as follows: Virginia, pounds of lint to the acre, 173; North Carolina, 180; South Carolina, 183; Georgia, 162; Florida, 117; Alabama, 150; Mississippi, 190; Louisiana, 235; Texas, 240; Arkansas, 233; and Tennessee, 170. These figures are the result of a consolidation of the revised county estimates and suppose a continuance of the average weather for the six remaining weeks of the harvest season. Injury by caterpillar or boll-worm is not appreciable except in a few counties.

The steamer Emma C. Elliott, while nearing St. Louis, the other evening, came upon an immense flock of wild ducks. The electric light was turned on, when the birds dashed against it with such force that several hundred of them were captured, and in the morning thirty-six were found concealed in the cabin.

THOMAS REESE, foreman of a rolling-mill at Louisville, Ky., was fatally injured by Bryan McMann, a recently discharged workman, who struck him three murderous blows on the head with a bar of iron.

A SCHOOL-HOUSE and several other buildings at Rippey, Iowa, were destroyed by a cyclone the other evening. Mrs. Harmon, wife of a farmer, was seriously injured, and her three children were bruised and cut by flying timbers.

A. G. SMITH, Surgeon of the Homeopathic Dispensary in Louisville, Ky., so successfully mesmerized a negro the other day that a difficult operation was performed without pain, although the patient was conscious of all that was said and done.

THE Upper Missouri is full of ice, and snow drifts ten or twelve feet deep are reported in Minnesota and Dakota.

The new opera-house, a fine hotel, and other buildings in Lexington, Ky., went to blaze the other afternoon. Three firemen were hurt.

A FAMILY of colored persons perished in a burning cabin, near Petersburg, Va., the other night.

H. O. WATERS, Manager of the Mutual Union Telegraph Company's office on the Board of Trade, Chicago, and a member of the board himself, shot himself on the 10th in his room on State street, opposite the Palmer House. The ball could not be found, and whether the wound is mortal or not the doctors could not say. There is a scandal back of the tragedy. The wife of the would-be suicide is a pretty woman, and foolish. The gossip said she was in Boston, whither she had gone in pursuit of a young fellow whom she loved better than her husband. She has two children. When friends asked Waters if there was anything he wanted he said: "Nothing, except what I have tried to give myself."

TRAIN-WRECKERS have again been at work on the Philadelphia & Reading Railroad. Heavy timbers were placed on the track near Limerick, Pa., the other night, for the purpose of derailing a passenger train, but an extra freight happened along in time to carry the obstructions down an embankment. No lives were lost, but many cars were demolished.

The Allen-street bridge in Rochester, N. Y., fell into the canal the other morning. Navigation was suspended for some time.

J. B. SMITH, of Sherman, Cal., murdered his fourteen-year-old son the other day, cutting his throat. Mr. and Mrs. Smith have been insane for some time, and claim that the Lord commanded the sacrifice.

DR. E. LUTZ, a prominent surgeon of Cleveland, Ohio, fell from the second story to the stone floor of the basement in the Blackstone block, the other day, a distance of thirty feet, and sustained injuries which will probably prove fatal. The elevator door was open and he stepped in, supposing the platform to be there.

GRAND preparations are being made for fast and bull-fights at Pridier Negres, Mexico, commencing on the 26th and lasting fifteen days. Excursion trains will probably run to Eagle Pass, from whence persons will be transferred across the Rio Grande by boats.

A WORKMAN in the Government tobacco factory at Lyons, France, was fined for violating the rules of the institution the other day. This so enraged his fellow-workers that they attempted to avenge their comrade by throwing the manager into the river. Police interfered, and with great difficulty succeeded in rescuing him. Several heads were broken during the melee.

THERE was a panic in a Catholic church in New York City on the 12th. Part of the ceiling fell down upon the worshippers. During the commotion three women fainted, but no person was seriously hurt. Order was finally restored by a few cleared-headed individuals, and the members of the congregation resuming their seats services were continued to the close.

OFFICER CROWE, of Brooklyn, N. Y., was nearly killed by a lot of Italians, on the 12th, and had to use his revolver on Jesse Tuitt, who was seriously wounded. Other policemen arrived in time to save Crowe's life, and a number of the rioters were arrested.

THE Rivers Seine and Marne are rising at an alarming rate. Disastrous floods in and around Paris are expected, and much alarm is felt.

### THE UNITED STATES REVENUE CUTTER

Corwin has arrived at Victoria, B. C., from the North, bearing particulars of a fight with Indians and the destruction of a village. The village destroyed was located at Hochino, on the Alaskan coast. A tribe had seized and held two white men and a steam launch which had been sent out with a tug. While the boat, provided with bomb-gearing, was firing, an explosion occurred, and an Indian chief, who was sitting on board the launch, was killed. The tribe surrounded the captured launch with two white men and nearly succeeded in getting possession of the tug. The latter, however, got away and steamed to Sitka. The Corwin, with the captain and sixty sailors and marines, was dispatched to Hochino. Capt. Merriam demanded the surrender of the launch and the prisoners, which the Indians refused to do. The next morning the Gatling gun was placed on an Indian canoe on the beach. The force was afterward landed and destroyed all the canoes. The Indians fled to the woods. The village was shelled, and the huts that remained standing after the shelling were looted and burnt. Several warriors who ventured out of the shelter of the woods were killed. The severe lesson was required as the tribe had been guilty of many acts of cruelty toward the whites.

LOUIS OLSEN, who left Minnesota the other day for a trip to Europe, celebrated his arrival in New York by drinking enough to drown his reason and then shooting his wife. The woman was taken to the hospital, where an arm was amputated and she died; three children were placed in a public institution; the husband and father went to jail.

TWO men were seriously injured by an explosion of naphtha near Boston, Mass., on the 12th. The flash was visible in a circle of fifty miles, and created no little excitement.

An unknown man and woman were suffocated by gas in a room at the Astor Place Hotel, New York, on the 12th.

A FAST train on the New York Central was thrown from the track near Peekskill, on the 12th, and three passengers were badly hurt.

GEORGE KEON was fatally shot by his brother, at Bullett's Grove, near Louisville, Ky., on the 12th. The shooting was accidental.

MISS BOARD, aged 15, daughter of a well-known farmer of Boone County, W. Va., was standing too near a fire, the other night, and a gust from an open door blew her dress into the flame. Helpless from fright, she ran through the house and into the yard, where she fell to the ground. Her agonizing shrieks brought assistance, but too late to save her from a horrible death.

A FARMER named James Stewart shot and instantly killed John Parker, near Monroeville, Ind., the other day, in mistake for a deer.

THE steamer Westphalia, from New York for Hamburg, put into Portsmouth in distress on the 13th, a large hole having been made in her bow by collision with an unknown vessel off Beachy Head. It is believed that the other vessel has gone to the bottom, with all hands; also a boat from the Westphalia, which contained an officer and six men.

THE steamer John M. Chambers, with 800 bales of cotton, was sunk by a St. Louis towboat near Plaquemine, La., the other morning.

In a bar-room fracas at Lawrence, Mass., on the 12th, Thomas Kennedy was fatally stabbed by Michael Douhy, who was arrested.

MISS CARPENTER, a young lady patient at the Eastern Lunatic Asylum, Lexington, Ky., committed suicide by hanging, a few days ago.

THREE workmen were killed, two fatally injured, and five others badly hurt by a boiler explosion in the Forest City Iron Works, Cleveland, Ohio, on the 13th.

### LATE NEWS ITEMS.

COL. FIELDING LOWRY, late Postmaster at Dayton, Ohio, committed suicide on the 13th. The cause of his action was inability to meet a deficiency of \$4,324 in his accounts.

THE steamship Angelica, plying between Gila and Hull, founded in the North Sea. Forty persons were drowned.

Mrs. NEWTON, an old lady living near Belle Valley, Ohio, wandered into the well the other night and was drowned. She had been deranged for some time, and it may have been a case of suicide.

THE Cuban refugee question has assumed a more satisfactory phase. The Spanish Government is inclined to treat the prisoners as political offenders and give indemnity to their families.

GEORGE THRUST, sixty years old, a rich farmer who lived near Mansfield, Ohio, committed suicide on the 13th, while temporarily insane.

THE Court-house at Crockett, Texas, was completely destroyed by fire the other day. Two persons perished in the flames.

A FARMER named Archibald Scott, while driving across the Michigan Central Railroad, near Dexter, the other afternoon, was struck by an express and instantly killed. One horse was killed and the other fatally injured.

FRANK PETERS, a young farmer living near Fremont, Ohio, fatally shot himself while gunning on the 12th.

The superintendent of a distillery in Des Moines, Iowa, was warned by letter the other day that fifty pounds of dynamite had been placed where it would explode at a certain temperature. A number of cartridges were found in pipes leading to the masher, and a thorough inspection of the works was ordered. It seems that Kidd and Babbitt & Co., the latter owning the mashes and leasing them to be used on percentage, had and Babbitt & Co. undertook to remove the mashes, but the distillery is understood to have been smoothed over. Kidd now suspects Babbitt as being in the plot, and has sworn out a warrant for his arrest.

A CORONER's jury investigating the killing of Col. Reppert and others at Ashland, Ky., rendered a verdict finding that deceased were killed by state militia on the Granite State, and that said firing was not done in the line of duty. The jury holds Major Allen, commander of the troops, culpable for ordering and permitting the fire.

ENGINEER FAIRBANKS and three others were seriously injured by a boiler explosion in a mill near Washingtonville, N. Y., on the 13th.

W. H. CROSS, a brakeman, was killed by falling from a Panhandle train at Coshocton, Ohio, the other night.
